

Resolution adopted by University Lyon 1

March 30, 2021

[\(official version in French\)](#)

For now almost two years, our colleague Tuna Altinel has been detained in Turkey, and is unable to resume his duties as a teacher and a researcher and to return to France where his students, colleagues, and University Lyon 1 are waiting for him.

Speaking in the name of the entire academic community, we wish to reiterate our full support to him.

We call on the President of the French Republic, on the Foreign Secretary, on the Minister of Higher Education, Research and Innovation, to make every effort so that our colleague, a faculty member and a civil servant in our university, can come back to France as soon as possible.
