

Personnalisation du menu

The screenshot displays the GeoGebra application window with a custom toolbar dialog box open. The dialog is titled "Barre d'outils personnalisée" and is divided into two main sections: "Barre d'outils" and "Outils".

Barre d'outils (Left Panel): This section shows a list of tools that can be added to the custom toolbar. The tools listed are: Déplacer, Séparateur, Nouveau point, Droite passant par deux points, Droite perpendiculaire, Séparateur, Polygone, Cercle (centre-point), Ellipse, Séparateur, and Angle. Below this list are buttons for "▲ Monter" and "▼ Descendre". At the bottom of this panel is a button labeled "Restaurer la barre d'outils par défaut".

Outils (Right Panel): This section shows a list of tools that are currently available in the main application. The tools listed are: Séparateur, Déplacer, Tourner autour du point, Enregistrer dans Tableau, Nouveau point, Intersection entre deux objets, Milieu ou centre, Droite passant par deux points, Segment entre deux points, Segment créé par un point et une longueur, and Demi-droite passant par deux points. Below this list are buttons for "< Insérer" and "Retirer >". At the bottom of this panel are buttons for "Appliquer" and "Annuler".

Main Application Window: The background shows the GeoGebra interface with a menu bar (Fichier, Éditer, Affichage, Options, Outils, Fenêtre, Aide) and a toolbar. The "Outils" menu is open, showing a list of tools including "Déplacer" (highlighted), "Séparateur", "Nouveau point", "Droite passant par deux points", "Droite perpendiculaire", "Séparateur", "Polygone", "Cercle (centre-point)", "Ellipse", "Séparateur", and "Angle". The status bar at the bottom shows the time as 15:52 and the application name as GeoGebra.
